San Joaquin General Hospital
Conference Room 1A&1B
500 W. Hospital Rd.
French Camp, CA 95231

Register online at <http://www.sjgov.org/ems/events.aspx>

About the course: Senate Bill 1350 passed in 2002, directed California EMS providers to undergo “terrorism awareness” training that exceeds that of the federal Office of Domestic Preparedness WMD Response Training Guidelines. This course was developed specifically for medical responders under the direction of EMSA to improve awareness, notification, coordination, response, and recovery from a chemical, biological, radiological, nuclear, or explosive (CBRNE) event.

The enhanced medical curriculum focuses on the specific signs and symptoms of various CBRNE agents. The course content covers:

- 1) Recognition of the threats and characteristics of CBRNE agents and devices
- 2) Recognizing illness and/or injuries in CBRNE events
- 3) Evaluation of a CBRNE site
- 4) Protective measures
- 5) Crime scene procedures
- 6) Transportation and decontamination of patients

Audience: All Emergency personnel involved in the response to and care of victims of a CBRNE/WMD event.

Fee: There will be no cost to participants. All course materials will be provided.

Continuing Education Units (CEUs): EMSA will provide eight (8) hours of CEUs upon successful completion of the course for EMS responders. CA EMS CE Provider 94-0001.

If you have any questions please contact Christine Tualla at 209-468-6818.
