SAN JOAQUIN COUNTY EMS AGENCY
Paramedic Accreditation Field Evaluation

Instructions for completing the Paramedic Accreditation Field Evaluation form:

For each patient contact fill in the fields: Date, Time, PCR #, Field Clinical Impression, Major ALS Procedure Performed, and Comments; then give scores in the following fields: Scene Management, Leadership, Patient Assessment, Communication, and Treatment Skills using the rating criteria.

Rating criteria:

- 1 – Frequently fails to perform procedure in a competent manner
- 2 – Inconsistent in performing procedures in a competent manner
- 3 – Consistently performs procedure in a competent manner
- N/A – Not applicable or did not perform skill

Definitions of Rating Fields:

Scene Management: Safety and work environment; uses universal precautions; crowd control; recognizes the need for and requests any additional equipment and/or assistance.

Leadership: Professionalism; feedback and guidance; rapport with patient, family, bystanders, and team members.

Patient Assessment: Primary assessment; secondary assessment; intervention; patient information; physical examination; assessment interpretation; chest auscultation; cardiac rhythms; patient management; patient response to therapy; ability to derive an accurate field clinical impression.

Communication: Speaks clearly and concisely; accurately reports all pertinent information in a systematic manner; repeats all orders and reports patient response to therapy; keeps accurate, complete, and legible written patient care records without errors or omissions.

Treatment Skills: Proficiency at performing and/or administering BLS/ALS medications and procedures; appropriateness of treatment for patient's condition.

Attach additional pages as necessary to completely document the candidate's performance.
